## SanStone Health & Rehabilitation Recognizes Employee Contributions with Inaugural Awards Gala

**SanStone Health & Rehabilitation honored the accomplishments of its staff at its first annual *Celebration of Purpose*, on March 24th.**

**[Asheville, NC, April 18, 2022]** At the first of what it hopes to become an annual event, last month, SanStone Health & Rehabilitation assembled 130 guests from across North Carolina for an evening of celebration and recognition. During the ceremony, 17 employees and one department were honored with The President's Award, in recognition of their accomplishments and sacrifices over the past year.

The evening was a red-carpet event open to employees, sponsors, winners and their guests, held at the Renaissance Asheville Downtown Hotel, complete with photo ops, paparazzi interviews, dinner, a live band, and dancing. Employees recognized came from every department and every region where the company operates. Each President's Award winner received a beautifully handcrafted glass award sculpture, \$500, a gift card to purchase gala attire, complimentary professional hair and makeup (for those who wanted to take advantage of these services), and hotel expenses. Guests of those receiving award recognition also had opportunities to win prizes valued at a minimum of \$250 each.

SanStone President Jennifer Robinson describes the event, "The President's Award exemplifies the highest form of recognition presented to one recipient per discipline amongst our direct care staff. Each individual was voted the best in their category within the SanStone organization. Their contribution to SanStone and the residents we are given the privilege to care for is a direct correlation to the company's overall success."

SanStone Health & Rehabilitation is a group of North Carolina long-term care and rehabilitation facilities that offer the most compassionate care. It is a working environment where employees have the tools they need to be successful, are recognized and appreciated for their hard work, and where they can build a career that touches people's lives and make a difference every single day. They aspire to be the first name in skilled nursing and rehabilitative care in North Carolina, known for being the best provider of short and long-term care and always doing what's "right."
